A login screen for AvantGo Enterprise. At the top is the AvantGo logo (a circle with a stylized 'A'). Below the logo is the text 'AvantGo Enterprise'. There are two input fields for 'Username' and 'Password'. Below the password field is a checkbox labeled 'Remember me' and a 'Login' button. Below the login button are two links: 'Download Client Software' and 'View Client Guide'. At the bottom, there is a copyright notice: 'copyright©1997-2000 AvantGo, Inc. Version 3.4.152 NT'. To the left of the copyright notice is a 'GENUINE RSA ENCRYPTION ENGINE' logo. To the right of the copyright notice is a paragraph of text: 'Contains encryption software from RSA Data Security, Inc. Copyright© 1999-2000 RSA Data Security, Inc. All Right Reserved.'

FIG. 29

FIG. 29 is a screenshot of the AvantGo Enterprise web interface. The interface includes a top navigation bar with a 'MENU' button on the left and a 'BRANDING STRIP' on the right. The main content area is divided into a left sidebar and a right main panel. The sidebar contains a 'MODE: Administrator' section, a 'TASKS' section with links for 'Find User', 'New User', and 'List All Users', and a 'SUB-MENU' section. The main panel displays the 'User Detail' for the 'Administrator' user, including fields for 'USER NAME', 'FIRST NAME', 'LAST NAME', 'PASSWORD', and 'CONFIRM PASSWORD'. A 'LEGEND' section is located at the bottom right of the main panel.

		Clear Channel Cache Clear Cookies Clear Authentication Info																																		
		<small> During synchronization, the server updates existing channels and pages with modifications only. Clearing the channel cache will force all the channels and pages to be transferred to the device during the next synchronization. Cookies containing profile information about you are placed in your user profile by the sites that you visit. Clearing the cookies database and cookies prevents all channels to check on your device to the web services that you visit. Clearing cookies will disable the "remember me" feature at features that the login prompt. Once web services connect you to update a user name and password to access the site, the server creates Web authentication cookies and requires it to be on the server device representation. Clearing the authentication cookies will require you to reenter your user name and password the next time you visit a site that requires authentication. </small>
